

## How long does it take to get an application approved?

The application process typically takes three (3) to five (5) days from when we receive your completed application, your signature on the disclosure form located at the bottom of the application, and the application fee. Please keep in mind that some of our home owners are out of the country so it may take a little longer than the usual time to get a response. Please note the following to ensure your application is accepted.

- Please complete the full application. Any incomplete applications will be sent back to you for completion.
- If the application fee is not received within 3 days of submittal your application will be destroyed.
